

EARTH OBSERVATION FOR WATER MANAGEMENT

BUILDING A COMMUNITY OF PRACTICE

Monday, 12 September 2022 | 13:30 - 15:00

Bella Centre, Room B4a

Earth observation (EO) technology, combined with modeling of highly complex, dynamic systems, can provide monitoring and forecasting information for both water quality and quantity.

Join us and contribute to the discussion on **how the recently established IWA EO Community of Practice can help address the barriers** in the uptake of the services across the water sector.

CHAIR: **Apostolos Tzimas, EMVIS S.A.**

CO-CHAIR: **Katharine Cross (Australian Water Partnership)**

13:30-13:40 Opening remarks - Apostolos Tzimas (EMVIS S.A)

Experts' perspectives:

- 13:40-13:50 Eva Haas (EOMAP)
- 13:50-14:00 Christian Tøttrup (DHI)
- 14:00-14:10 Djalila Umutangampundu (AfWa)

14:10-14:20 Q&A moderated by Katharine Cross (AWP)

14:20-14:50 Roundtable discussions

14:50-14:55 Summary of roundtables discussion

14:55-15:00 Wrap-up - Katharine Cross (AWP)
