

IWA offers different membership types, including Individual Membership, Corporate Membership and University Membership. Please consult below table to determine the 2019 membership fees associated with each membership.

For more information on the membership benefits please view the **IWA Membership Benefits** table. IWA uses a high / low income country classification for its membership fees. The HIC/LIC classification is based on your country of residence and not on your country of origin. Please consult the **IWA Country Classification** table to verify your HIC/LIC status.

Memberships can be taken up for 1 year or 2 years, with the 2-year membership option receiving 10% discount on the fees. Memberships are valid from the day of activation or renewing.

<sup>a</sup> Nominated Academics are selected members of staff/students of a University Member. They receive the same benefits as an individual member.

<sup>b</sup> Nominated Representatives are selected members of staff of a Corporate Member. They receive the same benefits as an individual member, with the exception of individual journal subscription at the discounted rate (denoted with \*)

IWA uses a high / low income country classification. Individuals and organisations from low income countries - those with a per capita income of less than US\$ 12,056 - benefit from discounted membership fees. Please note that the discount applies to membership fees only, and does not apply to other IWA products and services. Consult the list below to verify whether you are from a high or low income country. Rankings are based on the World Bank Atlas Method using GNI per Capita (US Dollars).
