LESSONS LEARNED FROM OUR FIRST YEAR:

- Curiosity is easy; engagement is harder
- Collaboration with other chapters is key
- Joint events are easier
- A buddy system works!
- Engaging recent graduates is invaluable
- Adaptation is a must
- You need a system to channel the enthusiasm
- Quality control is key
- We're volunteers. Life gets in the way
- Separate must-haves from nice-to-have

WHAT HAPPENED THEN?

- A group of YWP helped with some tasks
- Senior members suggested to create the YWP IWA Bolivia Chapter
- The YWP continued to help Senior members
- And finally, we decided to take the step...

BUT THERE WERE SOME PROBLEMS

1. Many YWP members withdrew the organization of the chapter
2. We had problems organizing our people:
 - Few active people remained
 - Initially, we couldn't establish a good network of YWP
 - Our ideas for events were great but we wouldn't implement them...

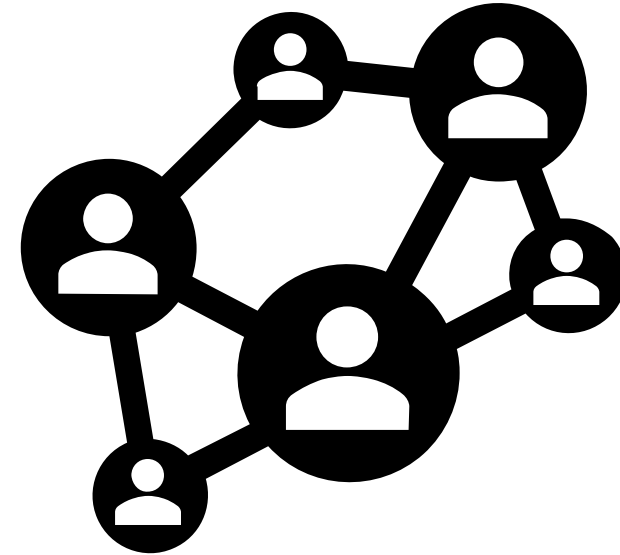

BUT NOW?

- IWA YWP Bolivia Chapter was officially launched in March 2023
- Our goal is to accomplish things with people who want to actively contribute to our chapter...
- ...and we want more!
 - Contact young researchers, scientist, field workers.....
 - Launch seminars, webinars, short courses....
 - Begin our own network and contribute to IWA Bolivia Chapter actively
 - Contribute to our region on issues related to water
- We believe, this is the way!
