

EMPOWERING SANITATION STUDENTS

IWA + Global Sanitation Graduate School initiative

THE INITIATIVE

The new initiative with the **Global Sanitation Graduate School (GSGS)** aims to engage sanitation students around the world. The joint effort seeks to integrate sanitation students into IWA's global network, accelerating the dissemination of cutting-edge sanitation knowledge and fostering a robust global WASH community.

WHAT'S AVAILABLE AND WHO IS IT FOR?

Thanks to the support of the Bill and Melinda Gates Foundation, up to **1000 GSGS students and graduates** now have the opportunity to obtain a complimentary **two-year individual student membership with IWA**. Applications for these sponsored memberships began in September 2023, and IWA is delighted to share that it has already welcomed 289 new members from 26 countries. This opportunity extends to **past, current, and future students of the GSGS** by IHE Delft. Whether studying at the IHE Delft campus in the Netherlands or enrolled in a GSGS programme through another university, including those who have completed their studies online, alumni and current students alike can take up the opportunity by applying for IWA membership.

Free IWA Membership with
code **GSGSIWA2023**

WHAT CAN YOU EXPECT?

You will be part of IWA's network of dedicated individuals working on global sanitation issues. As IWA members, students gain access to activities such as the insights of the Inclusive Urban Sanitation programme, the opportunity to connect with like-minded professionals as part of Specialist Groups, and a wide range of exclusive resources.

MORE INFORMATION

- All membership applications are subject to validation by GSGS regarding student status
- Join here internationalwaterassociation.my.site.com/s/individual-join using code **GSGSIWA2023**
- For application and membership queries, please contact members@iwahq.org
- For further information on GSGS, please visit: sanitationeducation.org
